Getting Familiar With The Fox

This edition of Shortcuts is sponsored by Guy Fox.

Wild foxes are found throughout the world, except for Antarctica, parts of Asia and some islands. These intelligent and popular creatures appear in the folklore and mythology of many cultures around the world, where they are often portrayed as mischievous, cunning or clever.

Fox News
 The red fox is the most common type of fox in the world.
 Gray foxes are the most common type of fox found in southern North America and in Central America.
 Arctic foxes live in the cold, northern regions of Europe, Asia and North America.
 Fennecs and bat-eared foxes are two types of African foxes that have extremely large ears.

Where do fox families go for dinner?
 Denny's.

What do you get when you cross a baby fox with a pop singer?
 Kit E. Perry.

Den Mother
 Foxes raise their young in a den. A den can be a hole, cave or hollow log.
 Adult foxes tend to live alone or in pairs. They form into small family groups when raising young.
 Both the male and female fox care for and feed their kits.

A male fox is called a "dog" or "reynard." A female is called a "vixen," and a young fox is called a "kit".

While most red foxes are orange-red in color, some are gray, silver or black.

What do you get when you cross a fox with a book?
 A red fox (read).

Where does a fox buy a new tail?
 At a retail store.

Most species of foxes are about as large as a medium-size dog.

The gray fox is one of the few species of fox that regularly climbs trees.

A fox's large ears and excellent hearing allow it to locate prey that is hidden in tall grass or beneath the snow.
